PROFESSIONAL EXPERIENCE

[Vaulthill](#)

Dec 2023 – Present

Lagos, Nigeria

Frontend Developer

- I streamlined state management by utilizing jotai, reducing complexity and ensuring consistent data flow across components, leading to a 20% reduction in bug resolution time.
- I collaborated with designers and stakeholders to translate concepts into seamless, user-friendly applications.
- I focused on delivering a consistent and polished design, aligning closely with user requirements and business goals.

[Spur SMB](#) (SaaS)

Jul – Nov 2023

San Francisco, CA

Software Engineer (Contract)

- I built and maintained accessible UI elements following best practices in React and Tailwind, ensuring compliance with WCAG standards.
- I Streamlined styling workflows by utilizing Tailwind CSS with a component-based approach.
- I Optimized front-end performance by implementing lazy loading and code-splitting in React, resulting in a 15% reduction in page load times.
- Integrated Azure OpenAI to create intelligent virtual assistants using Nest Js and websockets, offering users personalized support and natural language interaction capabilities.

[OpenDesk](#) (Consulting Firm)

Mar 2023 – Present

Lagos, Nigeria

Frontend Developer

- I built an internal ERP tool using React and TypeScript, creating reusable components to speed up development by 20%.
- I maintained clean code practices and implemented detailed testing frameworks, ensuring scalability and reliability.
- I focused on UI details to deliver a polished, user-friendly interface that enhanced user satisfaction.
- I collaborated with cross-functional teams to meet tight deadlines while maintaining high-quality standards.

Betterchalk (EdTech)

Jan – Mar 2023

Pittsburgh, PA

Software Engineer (Contract)

- I implemented scalable front-end solutions with Next.js, leveraging static site generation (SSG) to improve page load speeds by 30%, enhancing the e-learning platform's user experience.
- I enhanced SEO performance by leveraging Next.js's built-in optimization features, resulting in a 40% increase in organic search traffic within two months.

Ajeo (ecommerce)

Feb – Dec 2022

Lagos, Nigeria

Frontend Engineer

- I enhanced state management efficiency by implementing Redux to centralize application state.
- I Streamlined the deployment process by automating builds and deployments with CI/CD tools, reducing deployment time by 10%.
- I Integrated Redux with RESTful APIs to dynamically fetch and manage data, enhancing user experience by providing real-time updates to the product catalog and cart functionalities.

CERTIFICATES

BCS Certificate in IT

EDUCATION

Babcock University

2017 - 2021

Bachelor of Science (B.S.) in Computer Science

PROJECTS
