

Olutunde Solabi

Software Engineer

✉ solabi.tunde@gmail.com ☎ +2349037562951 📍 Lagos, Nigeria 🌐 Olutunde22
in Olutunde Solabi

Skills

Code Versioning

Git, Github

Database

MongoDB, SQL

JavaScript

Javascript, Typescript, ReactJS, VueJS, nextJS,
NodeJS, React native, Express JS, Loopback 4

Education

Bachelor of Science (B.S.) in Computer Science, *Babcock University* ✉

07/2017 – 06/2021
Ogun State, Nigeria

Professional Experience

Software Engineer, *Betterchalk* ✉

01/2023 – 03/2023

Remote

- Created user interfaces for complex software applications.
- Wrote well-designed, testable code.
- Retrieved and manipulated data on mongoDB by creating views and aggregations for data analysis.
- Implemented Controller-Service-Repository pattern

Junior Frontend Developer, *Ajeo* ✉

03/2022 – 01/2023

Remote

- I worked hand-in-hand with the UI team to develop a seamless UX on a number of projects which increased customer satisfaction by 20%.
- I implemented third-party integration like oAuth on the backend which reduced the user journey by one step.
- I implemented lazy loading and code splitting which reduced the initial load time by 20%.
- I worked with the backend team to engineer a database schema and implemented indexes that reduced query time by 200ms.

Software Engineer Intern, *Betterchalk* ✉

08/2021 – 10/2021

Remote

- Created reusable components by following DRY principle to avoid duplication
- Participated in weekly meetings to facilitate discussion of strategies, solutions, and improvements.
- Utilized agile methodology to design and develop software solutions.
- Collaborated with software engineers to develop and implement software solutions.
